# ALSTOR 840H

## The most agile harvester in the class!

This fantastic harvester exceeds the expectations with its agility, manoeuvrability and stability. It is based on the Alstor 840pro with the same driveline and engine with a completely new rear chassis. With a shorter wheelbase, the harvester has a much smaller turning radius and is experienced as incredibly smooth in dense thinning. The 840H is very stable thanks to a low centre of gravity, the placement of the crane and 4 removable counterweights. The crane is a Mowi P25 with 5.2 meters reach mounted on a tilt plate. The crane tilt means that you can access trees you thought were impossible to reach. Our Parker electro proportional control system with mini levers is standard. It uses our own developed software for the Tapio 160 harvester head were you get several smart and user-friendly functions to optimize the work flow.

Alstor 840H comes with a high base level of equipment such as: 10 LEDs on the cab and crane boom lighting, bullbar, saw holder, tool box and 27" wheels. Optional extra equipment includes Air Conditioning, Diesel Heater and Diameter measurement with volume calculation.

**Length:** 4.50 m

**Width:** 1.65m

**Service weight:** 3700kg

**Engine:** 3-Cyl Diesel 25 hp

**Electrical system:** 12v, Generator 60 A

10 LED lights on the cabin and crane boom lighting.

Rear view camera with 7" screen.

**Transmission:** Hydrostatic transmission with lockable differentials front & rear, constant 8 wheel drive. High and low gear.

**Brakes:** Travel brake via the transmission, automatic parking brake.

**Steering:** Power steering orbitrol, folding steering wheel, reverse control / dual command by default.

**Tires:** 27x10.5-12, 8-layer

**Speed:** 0-15 km / h

**Crane:** Mowi P25 parallel crane 5.2m / 400kg lifting force.

Electro proportional control system.

**Crane tilt:** Tilt angle +25 to -12 degrees.

**Harvester head:** Tapio 160. Cutting diameter 25 cm. Weight 215 kg.

Length measurement and proprietary software. Includes 920kg counterweights.
